SOCIAL WORK CONFERENCE:

An RCO Approach to Treatment and Recovery

SEPTEMBER 15, 2023

The program will focus on educating attendees on substance use disorders and the process of treatment and recovery from a community-based organization's approach. The goal is to educate and inform attendees on language and processes used in the treatment and recovery field so they may better understand resources in their communities.

LEARNING OBJECTIVES:

- Understanding peer workers have value and how to utilize their talents.
- Community goes beyond the status quo and how to identify community needs.
- How to develop a method for community change and stigma reduction around through the participatory process.
- Defining recovery capital and the recovery process.
- Utilizing SBIRT method to assist patients/clients in getting the level of care they need.
